### PROJECTS

#### HOTELS BOOKING WEBSITE (LIKE AIRBNB)

Developed a comprehensive hotel booking website as a full-stack application leveraging the MERN stack (MongoDB, Express.js, React, and Node.js). Engineered a responsive, component-based React frontend for an intuitive user experience, featuring dynamic room search, advanced filtering by price and location, and real-time availability display. Built secure RESTful APIs using Node.js and Express.js to handle all server-side logic,

#### Personal Portfolio Website

- Designed and developed a responsive portfolio site using HTML, CSS, and JavaScript. Showcased personal projects, resume, and contact form with animated scroll and responsive layout.

#### SPOTIFY FRONTEND CLONE

- Built a responsive Spotify clone using HTML and CSS Frontend that mimics the core UI of Spotify, including homepage, playlists, and music controls
